Ed,

We did not. Partly because our selectboard meeting fell after the cutoff date for comments and under Vermont's open meeting law we cannot take any action outside of a warned and public meeting.

I believe I can safely say that the board is in favor of getting the site cleaned up in a manner causing the least possible inconvenience to the residents of Richardson Road.

Thanks for asking.

Rick

Rick,

Did the Selectboard submit any comments regarding the Pike Hill Copper Mine proposed cleanup. It is fine either way, but I had not seen any correspondence and wanted to make sure it did not get misplaced in the mail room or missed in my email.

Best regards

Ed
